TRYBUZZCALL · BUZZCALL

Missed call. Booked and paid before you're back to work.

Nationwide · Built in Atlanta

BuzzCall texts back every missed call in seconds, books the customer on **your** schedule, and collects a deposit. For any local business that books by phone: home services first, braiders and beauty pros too. Atlanta first, any US state.

You can't answer when your hands are full.

You're under a sink, on a roof, or mid-braid. The call goes to voicemail, and the caller tries the next business on Google. BuzzCall sends a text from your business right away, gets them booked, and takes a deposit that's credited to their bill or service. You get the booking and the deposit, not a voicemail to chase.

Done for you. Nothing to switch.
Keep your current number. It all runs over plain text messages. No app to learn. We handle setup and the carrier texting registration (A2P 10DLC) with you.

How the text-back works

two flows, fully automatic, matched to your trade

1 · Pick a service and a time

Appointment trades: braiders, nails, lashes, barbers, stylists, massage

1. **Missed call** triggers a friendly text from your business.
2. Caller gives their name and **picks a service** from your menu.
3. They choose a day and **one of your open start times**.
4. Time is held while they pay your **deposit** through Stripe.

→ **You get BOOKED + PAID: name, service, time.**

2 · Describe the job

Job trades: plumbing, HVAC, electrical, handyman, cleaning, landscaping

1. **Missed call** triggers a friendly text from your business.
2. Caller gives their name and **describes the job** ("water heater leak").
3. They pick **one of your next open windows**, or ask for a callback.
4. Window is held while they pay your **deposit** through Stripe.

→ **You get BOOKED + PAID: name, job, window. Urgent jobs flagged.**

Why owners use it

- ✓ **Paid before you show up**: the deposit is credited to their bill or service.
- ✓ **You set the deposit** for your trade and your schedule.
- ✓ **No double-booking**, urgent jobs flagged, and callers can reply "callback."
- ✓ **Weekly recap + a real person to call**: we set it up with you.
