We don't sell texts. We sell booked, paid jobs. BuzzCall answers every missed call by text, books the job, and collects a deposit, for Georgia plumbing and HVAC shops with 1–5 trucks.

Sell booked, paid jobs. Not texts.

You're under a sink or up in an attic. The call hits voicemail, and the caller tries the next shop on Google. BuzzCall texts back in seconds, books them on **your** schedule, and takes a $49 deposit credited to their bill. You get the job and the money, not a message to chase.

Done for you. No software switch.
Keep your current number. Everything runs over plain text messages. No app, no dashboard. We do the setup *and* the carrier texting registration (A2P 10DLC) for you.

How it works

4 steps, fully automatic

1. **Missed call → text**
   A friendly text from your business, within seconds.
2. **Name + problem**
   Who they are and what's wrong ("AC out").
3. **Slot + $49 deposit**
   They pick 1 of your next 3 open times. It's held while they pay a $49 Stripe deposit, credited to the bill.
4. **BOOKED + PAID**
   Your alert: name, job, time, tap-to-call. Urgent flagged.

Why Georgia shops use it

- ✓ **Paid before you roll**: $49 down, credited to their bill.
- ✓ **Weekly recap**: calls caught, jobs booked, deposits collected.
- ✓ **Emergencies first**: urgent jobs are flagged.
- ✓ **Your call, always**: callers can reply "callback."
- ✓ **No double-booking**: held slots aren't offered twice.
- ✓ **A local person to call**: we set it up with you in person, in Georgia.

Georgia emergency scripts

ready to go, worded your way

🔥 Heat wave: AC out

"Sorry we missed you! No AC in this heat? Reply with your name + address. Anyone elderly, a baby, or sick at home? Say URGENT. Reply STOP to opt out."

❄️ Freeze: frozen or burst pipe

"Sorry we missed you! Pipe burst? Shut off your main water valve now if you can, then reply with your name + address. Reply STOP to opt out."

Simple pricing: you only pay more when you get paid jobs
